Director's Corner

Cheval Breggins

Dear Good News Outreach Community,

The summer is ending and the students are returning to school again! A new school year represents excitement and a new beginning, yet it can be can also be overwhelming and traumatic. Good News Outreach renders services to individuals and families to provide a metaphorical summer break from the challenges in their lives resulting in a new beginning that could be overpowering and shocking.

The individuals and families we serve deserve a new beginning. We want them to have big dreams and prosper because of their unbelievable power and determination. We want them to be healed, delivered, and set free to succeed in all that they do.

To better support the individuals and families, we have incorporated the offering of trauma-informed training for re-entry participants and trauma-informed therapy for all participants. We're making sure the individuals and families are offered services resulting in a strong start to a new life, yet we need your help to ensure resources are here for them throughout their education. Please consider making a gift today to help an individual or family spend less time in crisis and more time in thriving or volunteering to deliver food to seniors.

Thank you in advance for your generosity!

Our Food Delivery Program is in

Good News Outreach...

We would like to *welcome* Nikki Moye to Good News Outreach as our new Re-entry Program Manager!

Maryland Oaks Crossing Program

Good News Outreach is all about helping those in need in the two most basic of all needs: food and housing. The food pantry is open to the public Wednesdays and Thursdays, 9 am—2pm. Food delivery service is open to seniors 55 and older. Contact Food Program Manager Crystal for info.

Maryland Oaks Crossing is a two-year, transitional housing program offered through Good News Outreach. Forty six mobile home units are located off Bicycle Road, Tallahassee. Rentals are handled through Property Managers, Rent With Integrity. For additional info, call 850-778-2010.

Over the years there has been quite a few challenges delaying the re-opening of the Learning Center at Maryland Oaks Crossing (MOC). Slow progress has been made, but progress nevertheless. As we wait on some things to be approved and fall in place, we are getting things prepared for the re-opening. We are excited about the opportunities that re-opening the Learning Center will afford our MOC residents.

We have five units repaired in preparation for families. We are in the process of repairing 12 more units. This process will be in conducted in phases with estimated completion by the end of 2023.

FSU Chapman Medical Group is back resuming their regular service programs and visits, and the Food Pantry is still thriving and growing. We look forward to continued success for residents as we provide housing security and some much needed services.

As far as challenges go, we were struck a blow when a tree fell and damaged some of our playground equipment. Fortunately no one was hurt, but our playground is off limits for now until cleanup of downed trees and replacement of damaged equipment can occur.

The cost of replacing playground equipment can be costly. We are therefore seeking donations to help offset this cost. Though school has resumed, playground activities aid children in a special way. Help get our MOC children back on the playground with your generous donation.

Thank you!

Thank you!

Thank you!

Special Thank You For Services Rendered
